# About PDP

L'innovazione tecnica e stilistica è il cuore della filosofia PDP: un impegno costante nello sviluppo di prodotto e nel design, accompagnato da un supporto completo in ogni fase della progettazione, che rappresenta da sempre uno dei principali punti di forza dell'azienda.
Tutto il ciclo produttivo avviene internamente, completato da un servizio di consulenza tecnica e assistenza post-vendita, che riflette l'approccio PDP: **progettare valore, garantire qualità, affermare l'eccellenza del Made in Italy.**

Linee essenziali, tonalità tenui, un approccio progettuale che privilegia la funzionalità senza rinunciare all'eleganza. Il design PDP è da sempre un simbolo di equilibrio tra comfort, minimalismo e richiami al passato.
Un linguaggio capace di dialogare con l'architettura contemporanea delle case attraverso volumi misurati, materiali autentici e una sobrietà cromatica che diventa integrazione progettuale.
**Un'estetica che non insegue la tendenza, la crea.**

*Technical and stylistic innovation is the heart of PDP's philosophy: a constant commitment to product development and design, accompanied by comprehensive support at every stage of the project, which has always been one of the company's key strengths.*
*The entire production cycle takes place in-house, complemented by technical consulting and after-sales support, reflecting the PDP approach:* ***designing value, ensuring quality, and affirming the excellence of Made in Italy.***

*Elegant lines, subtle tones, a design approach that prioritizes functionality without sacrificing elegance. PDP design has always been a symbol of balance between comfort, minimalism, and references to the past.*
*A language capable of engaging with contemporary home architecture through restrained volumes, authentic materials, and a chromatic sobriety that becomes a design complement.*
***An aesthetic that doesn't follow trends, it creates them.***

# La forza di un progetto risiede nei dettagli

*The strength of a project lies in details*

# Il design dei nostri prodotti è in costante evoluzione: un equilibrio dinamico tra passato e futuro che prende forme sempre nuove

*The design of our products is constantly evolving: a dynamic balance between past and future that takes on ever new forms.*

# SPACE

Sistema modulare con guide di scorrimento pregiate ammortizzate ad olio, telaio robusto pur mantenendo la sezione sottile, si adatta a tutte le situazioni con un estetica neutrale, adatto come porta doccia o come compartimentazione di spazi

*Modular system with high-quality oil-damped sliding guides, robust frame while maintaining a slim section, adapts to all situations with a neutral aesthetic, suitable as a shower door or as a space compartmentalisation*
